Water System Upgrade

Mount Perry Road, Queen Street, Fairymead Road – Bundaberg North

Issue 1– December 2019

Work will commence in February 2020 on a $700,000 water infrastructure project to improve the water pressures in the Bundaberg North water supply area. Work is expected to be completed during April 2020. During this time, construction work will be undertaken Monday to Friday between the hours of 6.00 am and 5.00 pm.

This water infrastructure will consist of the installation of a water pressure main as indicated in yellow on the map.

Traffic Management measures will be implemented during construction. Individual owners will however be consulted if it is required to dig across their driveway during construction.

Bundaberg Regional Council is aware of the inconvenience construction work causes and thanks residents for their patience and co-operation. Should you have any concerns or queries regarding the water works, please call Council's Project Manager.
