

Water System Upgrade

Burnett Heads Road – Burnett Heads

Issue 2 – May 2020

Work will soon commence on Stage 3 of Council's \$300,000 water infrastructure project to improve the water supply to Burnett Heads.

The works will consist of the installation of a water main as indicated in yellow on the photo included. This work will be carried out by Council's Water Services team.

Construction is expected to take around one month, to be completed by the end of June 2020. Construction work will be undertaken Monday to Friday between the hours of 7am and 5pm.

Traffic Management measures will be implemented during construction. Individual owners will be contacted if Council needs to dig across owners' driveway during construction.

The new water main will be connected to the existing water network, which will cause disruption to the water service. Residents will be provided with prior notice, to minimize inconvenience.

Bundaberg Regional Council is aware construction work can cause disruption and thanks residents for their patience and co-operation while we improve the water service in this area. Should you have any concerns or queries, please call Council's Project Manager.
