

# Water System Upgrade

## Kolan and Gavegan Streets – Bundaberg North

Issue 1– July 2020

Work will commence in August 2020 on a \$400,000 infrastructure project to improve the water pressures in the Bundaberg North water supply area.

The works will consist of the installation of a water pressure main as indicated in yellow on the photo included. This work will be carried out by Council's Water Services team.

Work is expected to be completed during October 2020. Construction work will be undertaken Monday to Friday between the hours of 6.00 am and 5.00 pm.

Traffic Management measures will be implemented during construction. Individual owners will be contacted if Council needs to dig across owners' driveway during construction.

The new water main will be connected to the existing water network, which will cause disruption to the water service. Residents will be provided with prior notice, to minimize inconvenience.

Bundaberg Regional Council is aware construction work can cause disruption and thanks residents for their patience and co-operation while we improve the water service in this area. Should you have any concerns or queries, please call Council's Project Manager.
