

Water System Upgrade

Banksia Street – Bundaberg North

Issue 1– August 2020

Work will commence in September 2020 on a \$50,000 infrastructure project to replace water mains in the Bundaberg North water supply area.

The works will consist of the installation of a water pressure main as indicated in yellow on the photo. This work will be carried out by Council's Water Services team.

Work is expected to be completed during September 2020. Construction work will be undertaken Monday to Friday between the hours of 6.00 am and 5.00 pm.

Traffic Management measures will be implemented during construction. Individual owners will be contacted if Council needs to dig across owners' driveway during construction.

The new water main will be connected to the existing water network, which will cause disruption to the water service. Residents will be provided with prior notice, to minimize inconvenience.

Bundaberg Regional Council is aware construction work can cause disruption and thanks residents for their patience and co-operation while we improve the water service in this area. Should you have any concerns or queries, please call Council's Project Manager.
