

Water System Upgrade

Churchill Street – Bundaberg

Issue 1– December 2020

Work will commence in January 2021 on a \$70,000 infrastructure project to replace a water main in Churchill Street.

The works are the installation of a water pressure main, as indicated in yellow on the photo. This work will be carried out by Council's Water Services team.

Work is expected to be undertaken through January 2021, Monday to Friday between the hours of 6.00 am and 5.00 pm.

Traffic management measures will be in place as required, with some driveway access affected. The project team will liaise direct with households where access to driveways will be affected.

The new water main will need to be connected to the existing water network, leading to disruption of the water service. Residents will be provided with prior notice, to minimize inconvenience.

Bundaberg Regional Council acknowledges that construction work can cause disruption, so we thank residents for their patience and co-operation while we improve the water service in this area. Should you have any concerns or queries, please call Council's Project Manager.
