

Water System Upgrade

Tarakan Street – Bundaberg

Issue 1– January 2021

Work will commence in February 2021 on a \$170,000 infrastructure project to replace a water main in Tarakan Street.

The work to be undertaken by Council's Water Services team is for the replacement of a water main, as indicated in yellow on the photo.

Work is expected to be undertaken through February 2021, Monday to Friday between the hours of 6.00 am and 5.00 pm.

Traffic management measures will be in place as required and the project team will liaise directly with households where access to driveways will be affected.

The new water main will need to be connected to the existing water network, leading to disruption of the water service. Residents will be provided with prior notice, to minimize inconvenience.

Bundaberg Regional Council acknowledges that construction work can cause disruption, so we thank residents for their patience and co-operation while we improve the water service in this area. Should you have any concerns or queries, please call Council's Project Manager.
