

Water System Upgrade

Rustic Road - Sharon

Issue 1– March 2021

Work will commence in March 2021 on a \$70,000 infrastructure project to replace the Raw Water Pump Station at Burnett Downs Water Treatment Facility.

Works include the construction of a new pump station building, pipework installation and demolition of the existing structure. The new building is indicated in yellow on the attached overhead photograph. This work will be carried out by Council's Water Services team and an external building contractor.

Work is expected to be undertaken in March to May 2021, Monday to Friday between the hours of 6.00 am and 5.00 pm.

The new building will need to be connected to the existing water network, leading to disruption of the water service. Residents will be provided with prior notice, to minimize inconvenience.

Bundaberg Regional Council acknowledges that construction work can cause disruption, so we thank residents for their patience and co-operation while we upgrade the water service in this area. Should you have any concerns or queries, please call Council's Project Manager.
