

Sewerage System Upgrade

Heaps Street - Bundaberg

Issue 1– March 2021

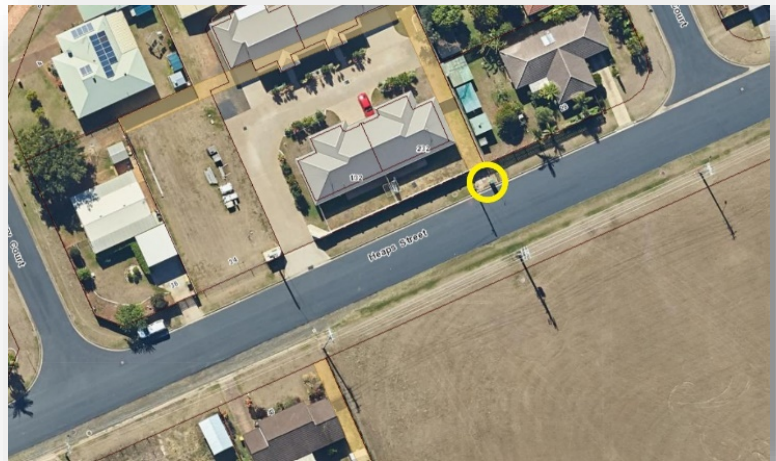

Work will commence in March 2021 on a \$90,000 infrastructure project to upgrade the Heaps Street Sewerage Pump Station.

Works include the installation of a new switchboard and pumps, pump station slab and well access lids. The activities will be conducted in the circle indicated in yellow on the attached overhead photograph. This work will be carried out by Council's Water Services Team and external contractors.

Work is expected to be undertaken in March to May 2021, Monday to Friday between the hours of 6.00 am and 5.00 pm.

Traffic management and site fencing measures will be in place as required, with some footpath access affected. Please adhere to the safety signage when traversing the site.

Bundaberg Regional Council acknowledges that construction work can cause disruption, so we thank residents for their patience and co-operation while we upgrade the sewerage infrastructure in this area. Should you have any concerns or queries, please call Council's Project Manager.
