

Sewerage System Upgrade

Atkinsons Road, Shine Street, Welch Street, Moore Street, Park Street

Elliott Heads

Issue 1– April 2021

Work will commence soon on a \$630,000 sewerage infrastructure project to improve the disposal of wastewater from the Elliott Heads Holiday Park, riverside parks amenities block, community hall and kiosk.

This sewerage infrastructure will consist of the installation of a sewer pressure main to a new sewer pump station at the northern end of Elliott Heads as indicated in yellow on the map.

Council's Water Services Team is involved with the construction of the sewerage infrastructure which is planned to commence in April 2021 and is expected to be completed during July 2021. During this time, construction work will be undertaken Monday to Friday between the hours of 7.00 am and 5.00 pm.

Traffic Management measures will be implemented during construction. Individual owners will be contacted if Council needs to dig across owners' driveway during construction.

Bundaberg Regional Council is aware construction work can cause disruption and thanks residents for their patience and co-operation. Should you have any concerns or queries regarding these works, please call Council's Project Manager.
