

Sewer Main Replacement

Thompson Road - Childers

Issue 1– May 2021

Work will commence in May 2021 on an \$80,000 infrastructure project to replace a sewer main in Thompson Road, Childers.

The works are the installation of a sewer pressure main, as indicated in yellow on the photo. This work will be carried out by Council's Water Services team.

Work is expected to be undertaken through May and June 2021, Monday to Friday between the hours of 6.00 am and 5.00 pm.

Traffic management measures will be in place as required, with some driveway access affected. The project team will liaise directly with households where access to driveways will be affected.

Bundaberg Regional Council acknowledges that construction work can cause disruption, so we thank residents for their patience and co-operation while we improve the sewer service in this area. Should you have any concerns or queries, please call Council's Project Manager.
