

# Water System Upgrade

## Reid Crescent and Tara Street – Innes Park

Issue 1 – September 2021

Work will commence in October 2021 on a \$225,000 infrastructure project to construct a water main at Innes Park.

The works will consist of the replacement of a section of the existing water main as indicated in yellow on the photo.

This work will be carried out by Council's Water Services team and work is expected to be completed during December 2021.

Construction work will be undertaken Monday to Friday between the hours of 6.00 am and 5.00 pm.

Traffic management measures will be implemented during construction. Individual owners will be contacted if Council needs to dig across owners' driveway during construction.

The new water main will be connected to the existing water network, which will cause disruption to the water service. Residents will be provided with prior notice, to minimize inconvenience.

Bundaberg Regional Council is aware construction work can cause disruption and thanks residents for their patience and co-operation while we improve the water service in this area. Should you have any concerns or queries, please call Council's Project Manager.
