

Water System Upgrade

Innes Park Road – Innes Park

Issue 1– March 2022

Work will commence in March 2022 on a \$45,000 infrastructure project to install upgraded water infrastructure opposite the Innes Park Road Water Booster Station.

Works include the excavation and construction of a new valve chamber, pipework installation and removal of the existing pits. The new valve chamber is indicated in yellow on the attached overhead photograph. This work will be carried out by Council's Water Services team and external contractors.

Work is expected to be undertaken in March to May 2022, Monday to Friday between the hours of 6.00 am and 5.00 pm.

The new infrastructure will need to be connected to the existing water network, leading to disruption of the water service. Residents will be provided with prior notice, to minimize any inconvenience.

Bundaberg Regional Council acknowledges that construction work can cause disruption, so we thank residents for their patience and co-operation while we upgrade the water service in this area. Should you have any concerns or queries, please call Council's Project Manager.
