

# Water System Upgrade

## Whittred Street – Bundaberg East

Issue 1– April 2022

Work will commence in mid-April 2022 on a \$90,000 infrastructure project to replace water mains along Whittred Street in Bundaberg East to improve the reliability of the water supply in the area.

Works include the excavation and installation of new pipework to replace the existing mains. The new pipeline is indicated with yellow dashes on the attached overhead photograph. This work will be carried out by Council's Water Services team and external contractors.

Work is expected to be undertaken in April to May 2022, Monday to Friday between the hours of 6.00 am and 5.00 pm.

The new infrastructure will need to be connected to the existing water network, leading to possible disruption of water services. Residents will be provided with prior notice, to minimize any inconvenience.

Bundaberg Regional Council acknowledges that construction work can cause disruption, so we thank residents for their patience and co-operation while we upgrade the water service in this area. Should you have any concerns or queries, please call Council's Site Manager.
