

Duckpond Road Flood Improvements

Issue 2 – June 2024

Highlighted area is indicative only

Bundaberg Regional Council has appointed SGQ Pty Ltd as Principal Contractor to undertake flood improvement works on Duckpond Road, Moolboolaman. The works will be undertaken as highlighted in red on the map above and will involve the installation of new precast concrete culverts, road re-alignment and widening of the road to 8.6m width over the Duckpond Road / Gin Gin Creek Crossing.

The new alignment will be on the eastern side of the existing road and will be approximately 1m higher than the existing crossing, however this does vary throughout the project.

Works are planned to commence on Monday 17 June 2024 with completion expected by late November 2024. Activities are expected to be carried out between the hours of 6:00 am and 6:00 pm Monday to Friday, with works on a Saturday if required.

Works will be undertaken using traffic control and temporary road closures. Access to private properties adjoining the work areas will be maintained during the construction period.

Residents can expect changes to traffic conditions during this time and delays may be experienced. The Principal Contractor will provide suitable

arrangements to maintain all regular services where these are provided, during the construction period.

Bundaberg Regional Council is aware of the inconvenience this work causes and thanks residents and road users in advance for their patience and co-operation.

If you have any concerns in relation to this notice, please contact Council's Project Manager, Mr Thomas Corr on the details below.

If your query relates to residential access or site works, please contact SGQ Pty Ltd's Project Manager, Mr Paul Andrew on the number listed below.
