The penalty fee is set per Kilolitre for discharge where the flow is greater than the set fee.

The charge will apply to each non-compliant parameter in addition to all other charges and will be calculated as follows:

Charge = (actual/approved)^d x charge rate (\$/kg) x kg pollutant

Where:

d = a constant determined by Council

The minimum ratio for (actual/approved) is 1

Actual means the actual quantity or concentration value which has been admitted to the sewer

Approved means the sewer admission limit value or other negotiated value defined in the trade waste approval

Licences for Waste Discharge to the Sewer under "Trade Waste Policy".

Note: No Permit Fees to apply to operations licenced under the *Environmental Protection Act 1994*.
